submissions:

closed (15 November 2022)

Message from the Guest Editor

Agricultural production places an increased focus on sustainable development. This also applies to horticulture, where the aim is to obtain high-quality crops and, at the same time, a biological balance of ecosystems. Therefore, new environmentally friendly fruit production systems are being developed, in which growing methods and techniques strongly rely on environmental conditions. This involves breeding new cultivars with enhanced resistance to adverse factors, using crop rotation to limit the exposure to pathogens in soil, organic mulching, stimulating biological processes in the rhizosphere, and applying biological preparations for plant protection and nutrition, in order to improve fruit quality [...]

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (*Agronomy*) / CiteScore - Q2 (*Plant Science*)
