an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Peter Langridge

Message from the Editor-in-Chief

Agronomy draws together researchers from diverse areas of agricultural research with a common aim of enhancing agricultural productivity globally. The journal provides unlimited free access to all those interested in advancing agricultural science from both the research and general community. Papers are released immediately after acceptance through the internet. *Agronomy* is supported by our authors and their institutes through low article processing charges (APC) for accepted papers. We hope you will support the journal by becoming one of our authors.

Author Benefits

Open Access Unlimited and free access for readers

No Copyright Constraints Retain copyright of your work and free use of your article

Thorough Rigorous Peer-Review

No Space Constraints, No Extra Space or Color Charges No restriction on the length of the papers, number of figures or colors

Coverage by Leading Indexing Services Journal is indexed by Scopus (Elsevier)

Discounts on Article Processing Charges (APC) If you belong to an institute that participates with the MDPI Institutional Open Access Program

Aims and Scope

Our aim is to encourage scientists to publish their experimental and theoretical research in as much detail as possible. Full experimental and/or methodical details must be provided for research articles.

The scope of *Agronomy* includes:

- Crop breeding and genetics
- Chemistry, biology, and genetics applied to agronomy
- Biotechnology for farming and the use of plants, plant breeding
- Farming and cropping systems
- Precision agriculture
- Crop-livestock interactions
- Crop and soil interactions
- Organic farming
- Weed science and weed management systems
- Industrial and bioenergy crops
- Horticultural and floricultural crops
- Agroecosystems and the environment
- Sustainable development of agronomy;
- Sustainability, biodiversity and ecosystem services of bioenergy cropping systems;
- Crop physiology;
- Water management/Irrigation in agronomy;
- Agricultural meteorology (climate change);
- Grassland and pasture improvement and agronomy
- Food systems
