submissions:
closed (15 November 2011)

Message from the Guest Editor

Dear Colleagues,

There is a strict relationship that links data compression, data communication and data processing. This is testified by the growing interest for efficient compression, communication and processing techniques that the new media are demanding. This special issue is devoted to the exploitation of the many facets of this relationship and explores the current state of the art of the research in compression and in communication.

The topics of interest of this Special Issue covers the scope of the CCP2011 Conference (<http://ccp2011.dia.unisa.it>).

Extended versions of papers presented at CCP2011 are sought, but this call for papers is fully open to all who want to contribute by submitting a relevant research manuscript.

Prof. Dr. Bruno Carpentieri
Guest Editor

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: Indexed in the Emerging Sources Citation Index (ESCI - Web of Science), Ei Compendex, Scopus and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 31 days after submission; acceptance to publication is undertaken in 5 days (median values for papers published in this journal in first half of 2017).
