Current Research in Sheep and Goats Reared for Meat

Guest Editors:

Prof. Dr. Wei Zhang

State Key Laboratory of Animal Nutrition and Feeding, College of Animal Science and Technology, China Agricultural University, Beijing 100193, China

Prof. Dr. Youji Ma

College of Animal Science and Technology, Gansu Agricultural University, Lanzhou 730070, China

Dr. Qingchang Ren

College of Animal Science, Anhui Science and Technology University, Fengyang 233100, China

Deadline for manuscript submissions:

31 December 2024

Message from the Guest Editors

Dear Colleagues,

The production of high-quality mutton is necessary not only to meet the increasing consumer demand but also to improve sustainable development in the mutton industry. Thus, we announce our Special Issue related to “Current Research in Sheep and Goats Reared for Meat”. For this Special Issue, we are pleased to invite you to share your innovative research or review papers on the latest developments in mutton production, focusing on improving technologies. More specifically, cutting-edge research papers or reviews related to nutrition regulation in sheep and goats reared for meat, genetic breeding, farm management, reproductive technology, disease control and treatment, meat quality identification and regulation, the processing and preservation of mutton, and other aspects of this field are welcomed for this Special Issue. In addition, this Special Issue also encourages research papers related to the efficient utilization of dung resources with regard to green development across the whole chain of the sheep and goat meat industry. We look forward to receiving your valuable contributions.

Message from the Editor-in-Chief

Animals is an on-line open access journal that was first published in 2011. *Animals* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues in the many varied disciplines that involve animals, with a focus on animal science, animal welfare and animal ethics. *Animals* is covered in the Science Citation Index Expanded (SCIE) in Web of Science, with the latest Impact Factor: 2.7 (2023, ranks 10/80 (Q1) in 'Agriculture, Dairy & Animal Science'; 16/167 (Q1) in 'Veterinary Sciences'), 5-Year Impact Factor: 3.0.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, Animal Science Database, CAB Abstracts, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
