Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

Dear Colleagues,

I am pleased to invite you to submit to this Special Issue in *Applied Sciences*, entitled “Advances in Organic Synthetic Chemistry”. We are seeking the latest research on advances and developments in novel methodologies in (bio)functional compound syntheses.

Studies of new reactions or synthetic methodologies are welcome. Manuscripts that focus on novel synthesized compounds for different applications, such as materials, photonics, biology, or electronics, among others, are also encouraged. We also seek submissions that develop protocols or processes that are more sustainable, atom-efficient, and without waste/residues, or that use greener solvents.

Original work highlighting the latest research developments is encouraged; however, review papers and perspective manuscripts are also welcome.

Dr. José A. González-Delgado

Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
