submissions:*

15 April 2018

Message from the Guest Editor

Dear Colleagues,

The Guest Editor is inviting submissions for a Special Issue of Applied Sciences on the subject area of “Renewable Energy 2018”. This Special Issue deals with recent state-of-the-art technology for renewable energy. These technologies increase the introduction of renewable energy in the world.

This Special Issue will focus on renewable energy and its applications. Topics of interest for publication include, but are not limited to:

- Wind energy;
- Solar energy;
- Tidal energy;
- Wave energy;
- Biomass energy;
- Energy storage;
- Energy transportation;
- Electrical power transmission;
- Energy distribution;
- Energy conversions;
- Control technique for renewable energy;
- Optimization technique for renewable energy;
- Reduction of CO₂ emission;
- Economic issues in renewable energy;
- Hydrogen production from renewable energy.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: Indexed by the **Science Citation Index Expanded** (Web of Science) [search for "Applied Sciences-Basel"], Scopus, Inspec (IET) and other databases.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 23 days after submission; acceptance to publication is undertaken in 6 days (median values for papers published in this journal in first half of 2017).
