Multi-Agent Systems 2019

Guest Editors:

Prof. Dr. Andrea Omicini
Department of Computer Science and Engineering (DISI) Alma Mater Studiorum – Università di Bologna, 47521 Cesena, Italy

Dr. Stefano Mariani
Department of Sciences and Methods for Engineering, Università degli Studi di Modena e Reggio Emilia, 41121 Modena, Italy

Deadline for manuscript submissions:
closed (31 January 2020)

Message from the Guest Editors

Dear Colleagues,

The purpose of this Special Issue is to make known some of the advances made in this paradigm and try to show the current state of this technology by analysing different aspects, as well as its possible application to various domains. This review of the current state-of-the-art is not intended to make an exhaustive exploration of all the current existing works, but rather to try to give an overview of the research in agent technology, showing the high level of activity of this area.

Prof. Dr. Andrea Omicini
Dr. Stefano Mariani

Special Issue

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
