

## Simulation-Based Validation and Design of Smart Grids

Guest Editors:

**Prof. Dr. Sebastian Rohjans**

**Dr. Thomas Strasser**

**Prof. Dr. Sebastian Lehnhoff**

### Message from the Guest Editors

Papers that present results related to simulation-based validation and the design of smart grid systems are particularly welcome for this Special Issue.

Keywords

- Design and validation methods for smart grid technologies
- modeling and simulation of smart grid systems
- co-simulation-based assessment methods
- real-time simulation and hardware-in-the-loop experiments
- AI-based simulation approaches

Deadline for manuscript  
submissions:

**closed (15 February 2021)**

# Special Issue

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Giulio Nicola Cerullo**

Dipartimento di Fisica,  
Politecnico di Milano, Piazza L.  
da Vinci 32, 20133 Milano, Italy

## Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
