Message from the Guest Editors

Dear Colleagues,

The SI will also be a great opportunity for disseminating recent developments of analytical and numerical techniques and for discussing novel phenomena and behaviors on several aspects of nonlinear dynamics and control. In addition, works related to relevant and current issues, such as epidemiological models, rumor dissemination, and complex systems, are also welcome.

Researchers and practitioners are invited to submit their original research work on the rapidly developing field of Nonlinear Dynamics and Control of System Oscillations and their applications to Engineering and Science.

Therefore, we encourage the submission of practitioners' latest unpublished work.

Prof. Dr. José Manoel Balthazar
Prof. Dr. Átila Madureira Bueno
