Special Issue - Open for Citations
Deep Brain Stimulation (DBS) Applications

Message from the Guest Editors

Dear Colleagues,

We would like to invite you to contribute an article to a Special Issue of *Brain Sciences*. The issue is dedicated to applications of Deep Brain Stimulation and, in this issue, we would like to highlight the new developments that are taking place in the field. These include the application of new technology to existing indications, as well as ‘new’ indications. We would also like to highlight the most recent clinical evidence from international multicentre trials. The issue will include articles relating to movement disorders, pain, psychiatric indications, as well as emerging indications that are not yet accompanied by clinical evidence. We look forward to your expert contribution to this exciting issue.

Prof. Dr. Tipu Aziz
Dr. Alex Green
Guest Editors

Author Benefits

- **Open Access**: free for readers, with publishing fees paid by authors or their institutions.
- **High visibility**: Indexed in the Emerging Sources Citation Index (ESCI - Web of Science), Scopus and other databases. Citations available in PubMed, full-text archived in PubMed Central.
- **Rapid publication**: manuscripts are peer-reviewed and a first decision provided to authors approximately 32 days after submission; acceptance to publication is undertaken in 6 days (median values for papers published in this journal in 2016).
