### Message from the Guest Editors

The pharmacotherapy of cancer has experienced some encouraging novel developments. A new armamentarium of anticancer drugs and their delivery have led to improvements not only in efficacy and safety profiles but also the quality of life both pre and post treatment.

This Special Issue of *Cancers* will cover theoretical and applied aspects of cancer drug discovery, formulation, product development, and clinical practices. Submissions presenting research related to chemical identification, in vitro/in vivo/in silico evaluation of anticancer agents, including natural products, or complementary medicine in original research and review articles are welcome.

Deadline for manuscript  
submissions:

**closed (15 October 2023)**

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
