## Cell Migration and Invasion in Cancer

Guest Editor:

**Prof. Dr. Suresh K Alahari**

Department of Biochemistry and  
Molecular Biology, LSU School of  
Medicine, New Orleans, LA 70112,  
USA

Deadline for manuscript  
submissions:

**28 February 2025**

### Message from the Guest Editor

Dear Colleagues,

Cell invasion and migration play important roles in embryonic development, homeostasis, and pathobiology and the process of cancer progression. Cell migration is coordinated by a plethora of cytoplasmic proteins which involve a transient signaling event with changes in the cellular architecture. In cancer progression, tumor cells originate from their primary site and metastasize to the distant organ. Various cytoplasmic protein and transcription factors have been identified to mediate this process. The progression of cancer to metastasis is a major reason for cancer death. In this Special Issue, we will briefly describe the role of various tumor suppressors, oncogenes, miRNA, and their targets in the regulation of tumor cell invasion, migration, and metastasis in different forms of cancer.

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
