## New Materials for Li-Ion Batteries

Guest Editors:

**Prof. Dr. Dmitry A. Bedrov**

Department of Materials Science  
& Engineering, University of Utah,  
Salt Lake City, UT 84112, USA

**Dr. Justin B. Hooper**

Department of Materials Science  
and Engineering, University of  
Utah, Salt Lake City, UT, USA

Deadline for manuscript  
submissions:

**closed (1 December 2018)**

### Message from the Guest Editors

This Special Issue invites manuscripts that discuss experimental or modeling investigations of new chemical or physical formulations for cathodes, anodes, electrolytes, or solid electrolyte interphases in Li-ion based batteries. These investigations may involve new chemical compounds that show promise as major phases for Li-ion based systems (e.g., high-voltage spinels, LiPON electrolytes, “water-in-salt” electrolytes, etc.), or new methods of processing current compounds to achieve novel structures (e.g., composite graphite/Si anodes, nanostructured composite cathodes), which increase the overall capability of these compounds above their currently utilized configurations.

## Editor-in-Chief

**Prof. Dr. Alessandra Toncelli**

Department of Physics, University  
of Pisa, 56126 Pisa, PI, Italy

## Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the crystal, where science merges with beauty and innovation.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [Ei Compendex](#), [CAPus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Crystallography) / CiteScore - Q2 (Condensed Matter Physics)
