Deadline for manuscript  
submissions:

**30 September 2018**

### Message from the Guest Editors

Dear Colleagues,

The Special Issue "Photocrystallography and Solid-State Structural Dynamics" will be dedicated to all aspects of modern photocrystallography and structural dynamics in the solid state. You are most welcome to contribute a research article to this Special Issue, presenting your particular scientific problems, related to structural changes induced by light or electric field, such as studies of solid-state reactions, excited state species, spin crossover processes, electron density polarisation, and so forth.
