Oral Medicine, University of
Michigan School of Dentistry, Ann
Arbor, MI 48109, USA

Deadline for manuscript
submissions:

closed (10 January 2023)

Message from the Guest Editor

Osseointegrated dental implants have been proven to solve problems associated with oral rehabilitation and have shown improved results in dentistry. However, some requirements for implant placement and success are bone quantity and quality; a correct diagnosis and treatment plan; and the application of digital tools, which have currently enhanced the precision of the results obtained. Thus, oral rehabilitation has continually been investigated, and new devices, biomaterials, and procedures have emerged—or have been compared—in order to improve quality of life. Moreover, esthetic results have been requested by patients, and soft grafts and new materials are being studied to achieve suitable and comprehensive results.

Within this background, this Special Issue would like to gather the best of implantology and periodontology, from basic research to advanced oral rehabilitation, showing digital technologies, surgical approaches, and reconstructions.

Authors conducting studies on these themes are welcome to submit original research, reviews, and short communications, case series, and case reports.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Claude Jaquiéry

Department for Cranio-Maxillo-
Facial Surgery, University
Hospital Basel, Spitalstrasse 21,
CH-4031 Basel, Switzerland

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, ESCI (Web of Science), PubMed, PMC,** and **other databases.**

Journal Rank: CiteScore - Q2 (*General Dentistry*)
