### **Message from the Guest Editor**

Dear Colleagues,

This Special Issue is concerned with all aspects of all dental specialties dealing with this topic. The question we could ask ourselves is: what are the most interesting materials in all these fields of dentistry? How can the latest generation materials and technologies influence the patient care plan?

Potential topics include, but are not limited to:

- bioactive implant surfaces
- bioactive biomaterials
- digital technologies
- CAD-CAM
- orthodontic aligners
