Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editor

The changing paradigm has become an inevitable aspect of modern digital forensics. New types of hardware, software, and services are frequently being introduced. Therefore, there is a need for advanced forensic techniques to support efficient cybercrime investigations and incident response.

This Special Issue including but not limited to the following topics of specific interest:

- Artificial intelligence/machine learning applied to digital forensics
- Blockchain technologies in digital forensics
- Cyber threat intelligence
- Cyberphysical system analysis
- Data fragment forensics
- Data visualization in digital forensics
- Dataset development for research, training, education, and tool testing
- Electronic document analysis
- Event correlation mining
- Event reconstruction and user behavior analysis
- Infotainment forensics
- Internet-of-Things forensics
- Malware detection and analysis
- Maritime digital forensics
- Mobile and embedded device forensics
- Multimedia analysis
- New versions of operating systems and applications
- Storage device partition, volume and filesystem forensics

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
