Deadline for manuscript  
submissions:

**closed (31 December 2022)**

### Message from the Guest Editors

Dear Colleagues,

Electric mobility, or E-mobility for short, has been an ever-growing sector including electric and hybrid-electric vehicles, ship propulsion systems, forklifts, electric cranes, railway systems, and electric planes. Subject can be observed from the ecological or economic point of view, where E-mobility benefits appear in comparison to traditional approaches (e.g., more electric aircraft). Supporting research in semiconductor materials and semiconductor devices is welcomed as well, as are all the other related topics including flexible microprocessor systems and rapid prototyping tools which are marking our time as a time of change in many fields. In this light, researchers are invited to publish their research involving different topologies of (bidirectional) power converters in variety of applications for E-mobility. The topics of interest include, but are not limited to:

- Bidirectional power converters
- Power inverters
- V2G converters
- Electric drives
- Railway systems
- More electric aircraft
- Ship propulsion systems
- Trends in e-mobility
- Electric cranes
- SiC and GaN devices
- Magnetic materials

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
