# Advances in Power Converters for Use in Cleaning Contaminants in Water

Guest Editor:

#### Dr. Pedro J. Villegas

Department of Electrical, Electronic, Communications and Systems Engineering, University of Oviedo, 33204 Gijon, Spain

Deadline for manuscript submissions: 15 September 2024

### Message from the Guest Editor

Dear Colleagues,

Advances in power converters play a significant role in addressing water contamination challenges. Power converters are essential components in water treatment systems, facilitating the conversion and control of electrical energy to power various processes involved in cleaning contaminants from water. The scope of these advances is broad and encompasses several key areas:

- Energy Efficiency;
- Renewable Energy Integration;
- Advanced Control Systems;
- Modularity and Scalability;
- Electrochemical Processes;
- Pulse Power Technology;
- High-Frequency Power Electronics;
- Data Analytics and Monitoring;
- Electrochemical Sensor Integration;
- Cost Reduction;

In summary, the scope of advances in power converters for water treatment is vast and holds great potential for addressing global water contamination challenges by providing more efficient, sustainable, and adaptable solutions.

### Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions. **High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases. **Journal Rank:** JCR - Q2(*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
