

## Recent Advances in Electromechanical Systems

Guest Editor:

**Prof. Dr. Iliana Marinova**

Department of Electrical  
Apparatus, Faculty of Electrical  
Engineering, Technical University  
of Sofia, 1000 Sofia, Bulgaria

Deadline for manuscript  
submissions:

**closed (31 December 2021)**

### Message from the Guest Editor

In recent years, electromechanical systems with magnetic modulation are gaining wider popularity in electromechanical power conversion. Flux-modulated electric machines, magnetic gears, hybrid drives and sensors are rising many new opportunities for efficient, compact, reliable, robust control and operation for wide variety of applications in renewable wind and water sources, electrical vehicles, underwater, air, and special transportation propulsions, within the mechatronic design paradigm.

The Special Issue is focused on recent advances in the analysis, design methodology, and implementation of electromechanical systems with magnetic modulation. New comprehensive works related with design, modeling, optimization, control, or performance testing of Flux-Modulated Electric Machines, Magnetic gears, Reluctance electric machines, Vernier machines, Halbach array systems, Magnetic coupling, Magnetic flux regulation, Flux modulation in wireless power transfer systems and Sensors with magnetic modulation are warmly welcomed.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
