Electronics and  
Telecommunications  
Engineering (DEET), University of  
Cuenca, Balzay Campus, Cuenca  
010107, Ecuador  
2. Department of Electrical  
Engineering, University of Jaen,  
23700 Linares, Spain

Deadline for manuscript  
submissions:

**20 June 2024**

### Message from the Guest Editor

This Special Issue of the journal *Electronics*, ‘Advancements in Power Electronics Conversion Technologies’, aims to provide a platform for researchers, engineers, and experts to share their works that address the recent cutting-edge innovations in the field of power electronics conversion technologies, grid integration, energy management, and control strategies for photovoltaic systems. Through this endeavour, we seek to disseminate valuable insights which can help to enhance the efficiency, reliability, and sustainability of photovoltaic power generation, thereby advancing the renewable energy landscape. We encourage submissions of papers that explore novel concepts, methodologies, and applications, thus pushing the boundaries of photovoltaic technology, fostering a deeper understanding of its potential and promoting its widespread adoption in the global energy landscape.

Topics including but not limited to the following:

- power electronics
- renewable energy
- power conversion technologies
- grid integration
- energy management
- control strategies
- photovoltaic systems
- efficiency
- sustainability
- innovations

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Flavio Canavero**

Department of Electronics and  
Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
