Message from the Guest Editors

Telecommunication networks have for many years been important elements of backbone and access networks. The main objective of this Special Issue is to report recent developments in architectures, protocols, algorithms, and techniques of telecommunication networks, including issues such as design, dimensioning, modeling, control and performance evaluation, and optimization. Authors of both theoretical and application-oriented papers presenting emerging ideas and technologies to solve various unsolved problems and challenges in telecommunications networks are welcome.

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

Journal Rank: JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Signal Processing)
