Message from the Guest Editors

Dear Colleagues,

It is our pleasure to announce that the 2nd Young Scholar’s Symposium on Battery Design and Management will be held this year in Tongji University, Shanghai, China, from June 8 to 10, 2017. The symposium was held for the first time last year (2016) in Tsinghua University, China. Around 100 young scholars from all over China, whose research interests fall into the fields of battery design and management, attended the symposium. There were many discussions regarding the science and technology of battery design and management in the symposium.

The Young Scholar’s Symposium on Battery Design and Management encompasses a range of disciplines concerning the technologies of battery design, modeling, state estimation, thermal management and safety, etc. This symposium aims to establish close links among these fields, set up system science based on knowledge from other sciences and promote multidisciplinary solutions to settle the complex battery system problems.

The conference website is: http://www.iceee.net/BDM2017/index.html

Assoc. Prof. Dr. Rui Xiong
Assoc. Prof. Dr. Haifeng Dai
Assist. Prof. Dr. Chao Hu

Deadline for manuscript submissions: 1 December 2017

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High visibility: indexed by the Science Citation Index Expanded (Web of Science), EI Compendex, Scopus and other databases.
Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 29 days after submission; acceptance to publication is undertaken in 6 days (median values for papers published in this journal in first half of 2017).
