Offshore Renewable Energy: Ocean Waves, Tides and Offshore Wind

Guest Editors:

Prof. Dr. Eugen Rusu

Department of Mechanical Engineering, University Dunarea de Jos of Galati, Galati, Romania

Prof. Dr. Vengatesan Venugopal

Institute for Energy Systems, School of Engineering, University of Edinburgh, Edinburgh EH8 9YL, UK

Deadline for manuscript submissions:
closed (31 October 2018)

Message from the Guest Editors

We are inviting submissions to a Special Issue of *Energies* on the subject area of "Offshore Renewable Energy: Ocean Waves, Tides and Offshore Wind".

Topics of interest for publication include, but are not limited to:

- Resource modeling of waves, tides and offshore wind;
- Technologies for the wave energy conversion;
- Technologies for the tidal energy conversion;
- Technologies for fixed and floating offshore wind energy conversion;
- Multi-energy platform concepts;
- Numerical and physical modelling of marine energy converters;
- Modelling of arrays of marine energy converters;
- Foundations, moorings and anchors for marine energy converters;
- Risk and reliability assessment of marine energy converters;
- Environmental impact of the marine energy farms;
- Economic assessments and LCOE projections for the marine energy.

Special Issue

energies

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Control and Optimization)
