Innovative Methods for Smart Grids Planning and Management

Guest Editors:

Prof. Dr. Pierluigi Siano

Department of Management and
Innovation Systems, University of
Salerno, 84084 Salerno, Italy

Dr. Miadreza Shafie-khah

Department of
Electromechanical Engineering,
University of Beira Interior,
Calçada Fonte do Lameiro, 6201-
001 Covilhã, Portugal

Deadline for manuscript
submissions:

closed (31 August 2017)

Message from the Guest Editors

Dear Colleagues,

We would like to invite submissions to a Special Issue of *Energies* on the subject of “Innovative Methods for Smart Grids Planning and Management”. In order to meet social requirements and economic improvements, current power systems have to be modernized; thus, providing a cost-efficient, eco-friendly, and sustainable energy is one of the main issues in modern societies. In response to this demand, new features of smart grid technology have provided enormous potential to have a more reliable, flexible, efficient, and resilient grid. The purpose of this Special Issue is to encourage researchers to address many of the challenges faced by the transition to a smart grid.

Prof. Dr. Pierluigi Siano

Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
