Deadline for manuscript
submissions:

closed (28 February 2018)

Message from the Guest Editor

Dear Colleagues,

We reopen the call for submissions of manuscripts to the volume "Geometry in Thermodynamics." Our updated call is intended to accommodate a somewhat-expanded span of topics, new researchers in the field, as well as anyone else who would like to contribute at this point. We welcome articles on symplectic geometry, contact geometry, inner product geometry, metric geometry, information geometry, and Legendre invariant geometry. Applications can include finite-time thermodynamics, fluctuation phenomena, black hole thermodynamics, and phase transitions. In addition, we invite articles related to model evaluations, quantum phase transitions, stochastic thermodynamics, machine learning, control theory, computer vision, optimal transport theory, and Wasserstein geometry. Geometry of thermodynamics is a growing area of research, with many new contributions in a number of areas.

Avenue, Albany, NY 12222, USA

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [PubMed](#), [PMC](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (*Mathematical Physics*)
