# **Quantum Information and Probability: From Foundations to Engineering**

Guest Editors:

## Prof. Dr. Francesco Buscemi

Department of Mathematical Informatics, Nagoya University, Nagoya 464-8601, Japan

#### Prof. Dr. Andrei Khrennikov

International Center for Mathematical Modeling in Physics and Cognitive Sciences, Linnaeus University, SE-351 95 Växjö, Sweden

Deadline for manuscript submissions:

closed (31 March 2023)

## **Message from the Guest Editors**

Dear Colleagues,

The quantum information revolution has large, foundational impacts on theories and experiments, and recently also on engineering. We invite all kinds of contributions devoted to quantum theory, experiments, and engineering, especially to foundational questions with coupling to the quantum information, probability, and measurement theories.

Prof. Dr. Francesco Buscemi Prof. Dr. Andrei Khrennikov Guest Editors

## **Message from the Editor-in-Chief**

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. Entropy is inviting innovative and insightful contributions. Please consider Entropy as an exceptional home for your manuscript.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (*Mathematical Physics*)
