Message from the Guest Editors

Dear Colleagues,

Computational biofluid mechanics is an emerging area involving complex fluids, complex structures and complex geometries. Modeling of the computational biofluid mechanics and understanding the underlying flow physics are of crucial importance in uncovering the mystery in this field and its applications in biomimetics, biomedicine and beyond. This Special Issue of *Fluids* is dedicated to the recent advances in computational biofluid mechanics, including numerical methods and applications in a variety of topics.

Engineering, University of Bath,
Bath BA2 7AY, UK

Message from the Editor-in-Chief

Fluids (ISSN 2311-5521) is an international journal on all aspects of fluids in open access format: research articles, reviews and other contents are released on the internet immediately after acceptance. You are invited to contribute a research article or a comprehensive review for consideration and publication in *Fluids*. The scientific community and the general public have unlimited free access to the content as soon as it is published. Please consider *Fluids* as an exceptional, exciting enterprise ready to reward your trust, attention, and active participation.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, ESCI (Web of Science), Inspec, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q2 (Mechanical Engineering)
