Message from the Guest Editors

Dear Colleagues,

In recent decades, customers have increasingly been demanding natural compounds instead of chemical additives in different foodstuffs (animal and plant origin) owing to the potential health hazards associated with their consumption. Hence, the modern food industry has been increasingly focused on following this trend in the discovery and application of natural extracts and bioactive compounds which could be used as additives. Plant extracts represent a broad spectrum of interesting ingredients, mainly due to their natural origin and phytochemical properties, allowing them to extend shelf-life and add value to the product.

The present Special Issue is focused on the application of plant extracts obtained by means of different emerging techniques as natural additives and quality enhancers in food processing and packaging. Additionally, this Special Issue is open to all high-quality contributions aimed at developing innovative concepts for bioactive compound extraction using process optimization, chemical characterization, and the determination of the bioactive potential of plant extracts.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
