Química, Escuela Politécnica
Superior, Universidad de Sevilla,
Sevilla, Spain

Deadline for manuscript
submissions:

20 November 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue will be a dedicated platform for exploring novel insights into the development and physicochemical and functional properties of emulsion-based food systems. The topics included cover the latest methods and technologies in their preparation and characterization, as well as their diverse applications, which all also contribute to the dynamic field of green emulsion food products and its relevance across various disciplines and industries. In this regard, we encourage proposals that offer new perspectives, methodologies, or applications in the field of emulsions. These may comprise interdisciplinary approaches, innovative research methodologies, or studies that bridge the gap between theory and practical application.

We believe that this Special Issue will serve as a platform for researchers to share their exciting works and, in the long run, that this will attract further attention in the innovative development of vital, promising food systems. We also invite contributions from industry experts or researchers working closely with food companies to provide insights into practical challenges and solutions in emulsion-based food product development.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [FSTA](#), [AGRIS](#), [PubAg](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
