Food Lipids — Chemistry, Nutrition and Biotechnology

Guest Editors:

Prof. Dr. Joanna Bryś

Department of Chemistry, Institute of Food Sciences, Warsaw University of Life Sciences (WULS—SGGW), Nowoursynowska st. 166, 02-787 Warsaw, Poland

Dr. Jolanta Małajowicz

Institute of Food Sciences, Warsaw University of Life Sciences—SGGW, Warsaw, Poland

Deadline for manuscript submissions:

10 June 2024

Message from the Guest Editors

Dear Colleagues,

Food lipids represent a major component of food as well as important structural and functional constituents of cells in biological systems. Generally, the quality of food is closely related to the quality of lipids.

This Special Issue is focused on the newest trends in food lipids research. We encourage scientists to bring the most updated information on emerging technologies to obtain valuable lipids, the lipid analysis of food products, the implication of different lipids in human health, the main degradative processes in and analytical methods for the quality of food, microbial lipid production, and the application as well as the role of lipids in the biotechnological production of flavor and fragrance compounds.

As the Guest Editors of this Special Issue, we look forward to reviewing your submissions on food lipids in terms of their structure and chemical properties, their impact on food quality and our health, and their potential biotechnological applications in the synthesis of food ingredients.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
