Women's Special Issue Series: Food Science

Guest Editors:

Prof. Dr. Juana Fernández-López

Dr. Susana Casal

Dr. Joana S. Amaral

Prof. Dr. Katrina Campbell

Deadline for manuscript
submissions:

closed (16 June 2023)

Message from the Guest Editors

We are very proud to lead this Special Issue that aims to promote and support the contributions of women scientists in all areas related to Foods, including the science, technology, engineering, innovation and development of new foods, among others.

Women scientists are leading ground-breaking research across the world and this Special Issue is intended to be a space where this research can be collected, highlighting the involvement of women in the development of our society and as role models for younger generations of women researchers who want to pursue their scientific careers and break the glass ceiling.

Regional, national and international programs are in place which promote gender equality in science, and we hope that this Special Issue series can contribute to achieving this aim.

All types of papers are welcome, including original research papers and review articles.

Although the purpose of this Special Issue is to promote and celebrate the achievements of women in science, no gender-specific restrictions will be imposed, and so we welcome submissions from all authors, irrespective of gender identity.

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **PMC**, **FSTA**, **AGRIS**, **PubAg**, and **other databases**.

Journal Rank: JCR - Q1 (*Food Science & Technology*) / CiteScore - Q1 (*Health Professions (miscellaneous)*)
