Deadline for manuscript
submissions:

closed (30 March 2023)

Message from the Guest Editors

In this Special Issue, "Investigation and Application of Fractals in Civil Engineering Materials", we would like to solicit your innovative ideas and work on the investigation and application of fractals in civil engineering materials. We encourage you to submit your original articles related to civil engineering and construction materials. In addition, your study could focus on any aspect of the civil engineering materials, their properties, cost analysis, life cycle assessment, experimental and theoretical verifications, etc. The purpose of this Special Issue is to promote the deeper and wider investigation and application of fractal theory in the fields of civil engineering materials. The submitted manuscripts will be peer reviewed, and those accepted will be published in the open-access journal *Fractal and Fractional*.
