Engaging in Interaction with Robots

Guest Editors:

Dr. Patrizia Marti
1. Department of Social, Political abd Cognitive Science, University of Siena, 53100 Siena, Italy
2. Industrial Design Department, Eindhoven University of Technology, 5612 AZ Eindhoven, The Netherlands

Prof. Dr. Henrik Hautop Lund
Technical University of Denmark, Building 326, 2800 Kgs. Lyngby, Denmark

Deadline for manuscript submissions:
closed (30 October 2017)

Message from the Guest Editors

Human–robot Interaction (HRI) is a field of research that has reached maturity in the last decade, with a huge amount of studies that have attracted the interest of a multidisciplinary community of scientists and practitioners from engineers to psychologists, sociologists, designers, and scholars of ethics, just to quote a non-exhaustive list.

Special Issue

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari
Department of Engineering and
Architecture, University of Parma,
Parco Area delle Scienze, 181/A,
43124 Parma, Italy

Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases.
Journal Rank: JCR - Q2 (*Computer Science, Information Systems*) / CiteScore - Q1 (Computer Networks and Communications)
