

An Open Access Journal

Editor-in-Chief

Prof. Dr. Emilio Elizalde

Message from the Editor-in-Chief

Galaxies is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to astronomy, astrophysics, and cosmology. It publishes reviews, research articles, communications and technical notes. We are proud that in the few years that has elapsed since its creation, it has gained an increasingly good international reputation in a very competitive domain. The journal will offer a base for scientists to expose scientific evidence, theories and reasonable speculation, where permitted, which will help to better understand the universe we live in.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Coverage by Leading Indexing Service

The SAO/NASA Astrophysics Data System (ADS)

Thorough Peer-Review

No Space Constraints, No Extra Space or Color Charges

No restriction on the length of the papers, number of figures or colors

More Information about This Journal

Aims and Scope

Our aim is to encourage scientists to publish their astronomical observations and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and methodological details, as applicable, must be provided.

The scope of *Galaxies* includes:

- Astronomy
- Astrophysics
- Cosmology
- Observational astronomy (Radio, Infrared, Optical, X-Ray, Neutrino, *etc.*)
- Planetary science
- Astronomy equipment and technologies
- Aerospace engineering
- Astronomical data analyses
- Astrochemistry and astrobiology
- Archaeoastronomy
- History of astronomy and cosmology
- Philosophical issues in cosmology
