Deadline for manuscript submissions: closed (31 January 2017)

Message from the Guest Editors

Dear Colleagues,

We invite contributions to a Special Issue in Games on “Behavior Regulation and Conflicted Emotions: Theory and Experimental Evidence”. The goal of this Special Issue is to bring together current research on emotions and regulation of behaviour (whether of self or others). We are interested in theoretical, experimental and empirical contributions that focus (but not exclusively) on emotions and behaviour regulation in games, emotions and decision making, emotions and self-control, conflicted (or mixed) emotions, and emotion regulation.

Interested authors are also invited to contact the Special Issue Guest Editors, Roman Sheremeta (rms246@case.edu) and Eric Schniter (schniter@chapman.edu), to discuss the fit of various topics to the Special Issue.

Dr. Roman Sheremeta
