### Message from the Guest Editor

Dear Colleagues,

Gynecologic cancers arising from the female reproductive system include ovarian cancer, endometrial cancer, cervical cancer, vaginal cancer and vulva cancer. The forthcoming Special Issue focuses on the “Diagnosis and Treatment for Gynecologic Cancers” and calls for papers on a wide range of topics, including basic science, pathology, epidemiology, screening, diagnostic techniques, precision medicine, surgery (including debulking surgery, laparoscopic surgery and robotic surgery), radiotherapy, chemotherapy, molecular targeted therapy, immunotherapy, dietary therapy, care and experimental studies.

We warmly welcome submissions, including novel and interesting original articles or reviews in this Special Issue.

Prof. Dr. Masafumi Koshiyama
