Deadline for manuscript
submissions:

closed (31 October 2020)

Message from the Guest Editor

Dear Colleagues,

For this Special Issue of ‘Feature Papers in Horticulturae’, high-quality mini-reviews, reviews, and original papers on select topics in the research areas of our Editorial Board members are being sought. The goal of this SI is to highlight, through selected works, frontier research in basic to applied horticulture. Horticultural research at the plant level has been undergoing fundamental changes to improve crop plants due to the emergence of new biochemical and molecular techniques. In addition, integration of new technologies with the desire to develop more sustainable production systems has also spurred production level research. We encourage Editorial Board members of Horticulturae to contribute papers reflecting the latest progress as well as new opportunities in their research field, or to identify and/or invite relevant experts and colleagues to contribute. In addition, contributed manuscripts from those not on the Editorial Board are welcomed.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Horticultural plants and their products provide sustenance, health, and beauty. A confluence of factors is putting increasing pressure on horticultural production to evolve, and innovative research is addressing these challenges. *Horticulturae* provides a venue to communicate research results in a rapid manner with open access, allowing everyone the opportunity to stay abreast of leading research addressing horticulture. I invite you to consider publishing the results of your research in this high quality, peer-reviewed journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, FSTA, and other databases.

Journal Rank: JCR - Q1 (*Horticulture*) / CiteScore - Q2 (*Horticulture*)
