Editor-in-Chief

Prof. Dr. Paul B. Tchounwou

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards.

IJERPH provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality peer-reviewed journal.

Author Benefits

-  **Open Access** Unlimited and free access for readers
-  **No Copyright Constraints** Retain copyright of your work and free use of your article
-  **Impact Factor 2.101 (2016 Journal Citation Reports®)**
-  **Rapid Publication** First decision provided to authors approximately 29 days after submission; acceptance to publication is undertaken in 7 days
-  **Coverage by Leading Indexing Services** SCIE-Science Citation Index Expanded (Thomson Reuters), SSCI-Social Sciences Citation Index (Thomson Reuters), MEDLINE (NLM), PubMed Central
-  **No Space Constraints, No Extra Space or Color Charges** No restriction on the length of the papers, number of figures or colors
-  **Discounts on Article Processing Charges (APC)** If you belong to an institute that participates with the MDPI membership program

Aims and Scope

We focus on the publication of scientific and technical information about the environmental and occupational correlations of health and disease, the relationship between environmental health and the quality of life, as well as the socio-cultural, political, economic and legal considerations related to environmental stewardship and public health.

The Primary Areas of *IJERPH* include:

- Gene–environment interactions
- Environmental genomics and proteomics
- Environmental toxicology, mutagenesis and carcinogenesis
- Environmental epidemiology and disease control
- Health risk assessment and management
- Ecotoxicology, and ecological risk assessment and management
- Emerging issues in environmental health and disease
- Environmental education and public health]
