Call for Papers

Dear Colleagues,

You are invited to contribute a research article or a comprehensive review for consideration and publication in the International Journal of Environmental Research and Public Health (IJERPH) (ISSN 1660-4601). IJERPH is a peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications in the interdisciplinary area of environmental health sciences and public health.

Manuscripts prepared in Microsoft Word or LaTeX can be submitted online to the Editorial Office at www.mdpi.com. Detailed instructions for authors are also available online: www.mdpi.com/journal/ijerph/instructions/

IJERPH is published in open access format — research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published.

As an open access journal, IJERPH is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. More information is available at: www.mdpi.com/about/apc/

We would be pleased to welcome you as one of our authors.

Prof. Dr. Paul B. Tchounwou
Editor-in-Chief

Aims & Scope

IJERPH links several scientific disciplines including biology, biochemistry, biotechnology, cellular and molecular biology, chemistry, computer science, ecology, engineering, epidemiology, genetics, immunology, microbiology, oncology, pathology, pharmacology, and toxicology, in an integrated fashion, to address critical issues related to environmental quality and public health.

Therefore, IJERPH focuses on the publication of scientific and technical information on the impacts of natural phenomena and anthropogenic factors on the quality of our environment, the interrelationships between environmental health and the quality of life, as well as the socio-cultural, political, economic, and legal considerations related to environmental stewardship and public health.

IJERPH regularly publishes special issues on relevant and timely topics. Be sure to check our website for an updated list of special issues: www.mdpi.com/journal/ijerph/

Papers published in the IJERPH will receive high publicity since the journal is freely available online. In addition, IJERPH boasts a very quick time to publication: the first decision is provided to authors approximately 28 days after submission; acceptance to publication is undertaken in 10 days (median values for papers published in IJERPH in 2013).

IJERPH is covered by leading indexing services, including PubMed (Medline) and the Science Citation Index Expanded (Web of Science), EMBASE and Scopus (SciVerse). Full-text articles are also available through PubMed Central.

The journal’s latest Impact Factor is 1.993 for the year 2013.

Be sure to check our website for an updated list for special issues: www.mdpi.com/journal/ijerph/special_issues/
