submissions:

closed (31 October 2022)

Message from the Guest Editors

Dear Colleagues,

This Special Issue calls for original contributions, including observational and experimental studies, exploring the following topics:

- History of occupational and environmental toxicology;
- Occupational and environmental toxicology;
- Exposure assessment approaches;
- Ecotoxicology;
- Bioaccumulation and biomagnification;
- Endocrine disruptors;
- Metals;
- Asbestos;
- Nanomaterials;
- Occupational diseases.

We encourage you to submit your contribution proposals in order to increase awareness about occupational and environmental toxicology.

Dr. Antonio Baldassarre

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
