Dipartimento di Medicina Clinica e Chirurgia, Unit of Endocrinology, Federico II University Medical School of Naples, 80131 Naples, Italy

Deadline for manuscript submissions:

closed (30 June 2016)

Message from the Guest Editor

Dear Colleagues,

The Special Issue on "Environmental Diseases" is proposed by IJERPH in cooperation with the Southern Italy Hospital Institute for the Environment (I.O.S.), Naples, Italy. It aimed at publishing original articles, mini-reviews, systematic reviews, and metanalyses addressing the topic of environmental influences on human health. Specifically, the Special Issue will focus on:

- Environmental threats to human health
- Air/soil/water pollution and human health
- Exposure to environmental pollutants and their effects on human organ pathophysiology
- Epidemiological Observational studies (case-control or cohort studies or surveys on dataset)

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase,

GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
