Obesity Prevention in Children and Adolescents

Message from the Guest Editor

Dear Colleagues,

This Special Issue will focus on emerging environmental factors that influence childhood obesity and innovative, environmental strategies to prevent and treat this epidemic. We are interested in topics such as, though not limited to:

- multi-level, influencing factors
- innovative, environmental interventions
- the role of key stakeholders
- various settings (i.e., home, school, neighborhood, churches, communities)
- environmental, organizational and/or policy changes

Researchers are invited to contribute novel work to be considered for publication in this Special Issue. There are no restrictions on study design and methodology. Articles that focus on either preventing childhood obesity or decreasing the increase in childhood obesity are welcomed. Additionally, articles that focus on underrepresented or disadvantaged communities are encouraged.

Dr. Daheia J. Barr-Anderson
Guest Editor
Editor-in-Chief

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), Social Sciences Citation Index (Web of Science), MEDLINE (PubMed), Scopus (Elsevier) and other databases. Full-text available in PubMed Central.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in the first six months of 2018).
