Message from the Guest Editor

Dear Colleagues,

We are organizing a Special Issue on the relationship of public health and pediatric obesity treatment and prevention in the *International Journal of Environmental Research and Public Health*. The venue is a peer-reviewed scientific journal that publishes articles and communications in the interdisciplinary area of environmental health sciences and public health. For detailed information on the journal, we refer you to <http://www.mdpi.com/journal/ijerph>.

Pediatric obesity continues to be amongst the most challenging healthcare issues facing the world. As we recognize that environmental issues are critically important, public and population health-based initiatives are playing a more and more prominent role in fighting the obesity epidemic. With this Special Issue, we hope to explore new and innovative ways the obesity problem is being approached on a community, region, national and worldwide scale.

This Special Issue is open to any subject area related to the impacts of public and population health on pediatric obesity.

Message from the Editor-in-Chief

Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Public Health, Environmental and Occupational Health*)
