Deadline for manuscript submissions: closed (31 January 2021)

Message from the Guest Editor

Dear Colleagues,

Exposures to air pollution remain a key determinant of morbidity and mortality worldwide. Research in this area has been instrumental in setting policies worldwide, however, data is still needed in many countries around the world, and on understudied diseases. More information is also needed on how traffic-related exposures (including air pollution) interact with other aspects of the environment (e.g., temperature, humidity, greenness, urban form) to impact health in the general population. Intervention studies are also needed to provide examples of how changes in behaviors or in exposures can lead to changes in health outcomes.

This Special Issue is open to any subject area related to the impacts of air pollution or traffic exposures on public health. The listed keywords suggest just a few of the many possibilities.

Dr. Jaime Hart *Guest Editor*

Prof. Dr. Paul B. Tchounwou

RCMI Center for Urban Health Disparities Research and Innovation, Richard Dixon Research Center, Morgan State University, 1700 E. Cold Spring Lane, Baltimore, MD 21251, USA Addressing the environmental and public health challenges requires engagement and collaboration among clinicians and public health researchers. Discovery and advances in this research field play a critical role in providing a scientific basis for decision-making toward control and prevention of human diseases, especially the illnesses that are induced from environmental exposure to health hazards. *IJERPH* provides a forum for discussion of discoveries and knowledge in these multidisciplinary fields. Please consider publishing your research in this high quality, peer-reviewed, open access journal.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, PubMed, MEDLINE, PMC, Embase, GEOBASE, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (Public Health, Environmental and Occupational Health)
