Deadline for manuscript
submissions:

31 August 2018

Message from the Guest Editors

Dear Colleagues,

This Special Issue invites original contributions that tackle the handling of place and address the meaning of place in GIScience, Geoinformatics and neighboring disciplines. Research may contribute to the following overarching questions: How can place be adequately addressed and handled with established or new GIScience theory and methods? What methodologies from other disciplines (e.g., computer science, linguistics, etc.) can be considered in order to sufficiently account for place-based analyses? We welcome submissions from diverse disciplines, including Environmental Psychology, Linguistics, Urban Planning, Spatial Economics, Geographic Information Science, Spatial Cognition, Human–Computer Interaction, Data Science, Smart City, Big Data, Health and Place, and others.

Prof. Thomas Blaschke

Message from the Editor-in-Chief

The *ISPRS International Journal of Geo-Information* invites you to submit research articles, reviews, and reports covering topics of the whole domain of geo-information. Although the journal was only founded in 2012, it has already achieved wide recognition in the scientific community. We are proud that since April 2015, our journal is indexed by the SCIE of the Web of Science. As Editor-in-Chief, I encourage you to consider *IJGI* for your scientific papers and would be pleased to welcome you as authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: The journal is covered by **Science Citation Index Expanded** (Web of Science), Scopus and INSPEC (IET).

CiteScore 2017 (Scopus): **2.10**, which equals rank 22/82 (Q2) in the category 'Earth and Planetary Sciences (miscellaneous)' and 13/36 in 'Computers in Earth Sciences.'
