State Physics Hubei Province,
School of Physics and
Technology, Wuhan University,
Wuhan 430072, China

Deadline for manuscript
submissions:

closed (31 January 2024)

Message from the Guest Editors

The search for new materials with good performance that are also sustainable for the environment requires a suitable combination of advanced methods to understand their structural features, from macro- to nanoscales. Among the techniques able to supply information about the properties of a material at an atomic level, positron annihilation offers several advantages: it is non-destructive and is able to detect sub-nanometric cavities, such as vacancies in metals, voids in porous materials, and free volume holes in polymers. Furthermore, using a beam of monoenergetic positrons, it is possible to explore different subsurface layers of material.

The aim of this Special Issue is to collect reviews as well as original research articles on this technique, showing its capability to potentially investigate any kind of material, from metals to semiconductors and non-metallic systems.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
