Message from the Guest Editors

Dear Colleagues,

Our first volume of the Special Issue "Choroid Plexus: Novel Functions for an Old Structure", clearly demonstrated the interest in the roles of the choroid plexus-cerebrospinal fluid system.

The first volume, highlighted the importance of the choroid plexus as a key player in the maintenance of the microenvironment of the central nervous system under both normal and pathological conditions.

We expect that the second volume of the Special Issue on "Choroid Plexus: Novel Functions for an Old Structure", continues to further increase and strengthen the knowledge of new choroid plexus functions in the pathophysiology of the central nervous system.

Dr. Cecília R. Santos

Message from the Editor-in-Chief

The *International Journal of Molecular Sciences (IJMS)* is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biochemistry and Molecular Biology) / CiteScore - Q1 (Inorganic Chemistry)
