Deadline for manuscript
submissions:

closed (30 April 2023)

Message from the Guest Editors

Inflammatory bowel diseases (IBD) represent chronic debilitating inflammatory disorders that can affect different parts of the gastrointestinal tract and which are commonly correlated to two main diseases: Crohn's disease and ulcerative colitis. These inflammatory conditions can lead to the development of severe complications such as anemia, malnutrition, infection, and an increased risk of colon cancer, one of the most common cancers worldwide. Despite intense research efforts, the etiology of IBD is not well-established, but it is reasonably hypothesized that the interaction of multiple factors, including environmental and genetic factors, intestinal microbiota, and immune response are involved in IBD promotion.

This Special Issue will investigate the recent advances in the study of the role exerted by dietary bioactive compounds against IBD, focusing attention on the cellular processes, the molecular mechanisms, and the involved pathways, in order to elucidate their possible beneficial health effects and to promote their efficacy in this disease management. Topics related to both original and reviewed articles are welcome.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Maurizio Battino

Department of
Odontostomatologic and
Specialized Clinical Sciences,
Sez-Biochimica, Faculty of
Medicine, Università Politecnica
delle Marche, Via Ranieri 65,

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
