Message from the Guest Editors

Dear Colleagues,

At present, it is increasingly evident that a correct diet is essential for maintaining the state of brain health. Macronutrient and micronutrient deficiency and metabolic disorders of lipid, carbohydrate and protein metabolism have been involved in the pathogenetic mechanisms of neurodegenerative disorders. Different specific nutrients are considered essential for the prevention and/or treatment of Parkinson disease, Alzheimer disease, multiple sclerosis and others. This Special Issue welcomes the submission of original research papers or comprehensive reviews that demonstrate or summarize significant advances in the field of nutrients in the pathogenesis and/or treatment of different neurodegenerative disorders.

Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
